

IMP2 NBR Rubber Impeller For UP1-J Pumps - Bilge Use

£13.52

Excl. Tax: £11.27

Product Images

Short Description

Impeller made from special nitril rubber NBR for use with the UP1-J models of pump. This impeller is for use with water and salt water. The flexible nature of the impeller also means that it can handle an amount of solids in suspension up to a maximum size of Ø5mm.

It is recommended by Marco that the rubber impeller is replaced every season or 500 hours, whichever occurs soonest. This is to ensure the correct performance of the pump.

Additional Information

Pump Compatibility	UP1-J, UP1-JS, UP1-JR
Liquid Type	Fresh + salt water
Power Consumption	3 Amps
Bore (mm)	8.00
Diameter (mm)	40.50
Weight (kg)	0.010000
Manufacturer	Marco
