£9.71

Excl. Tax: £8.09

Product Images

Short Description

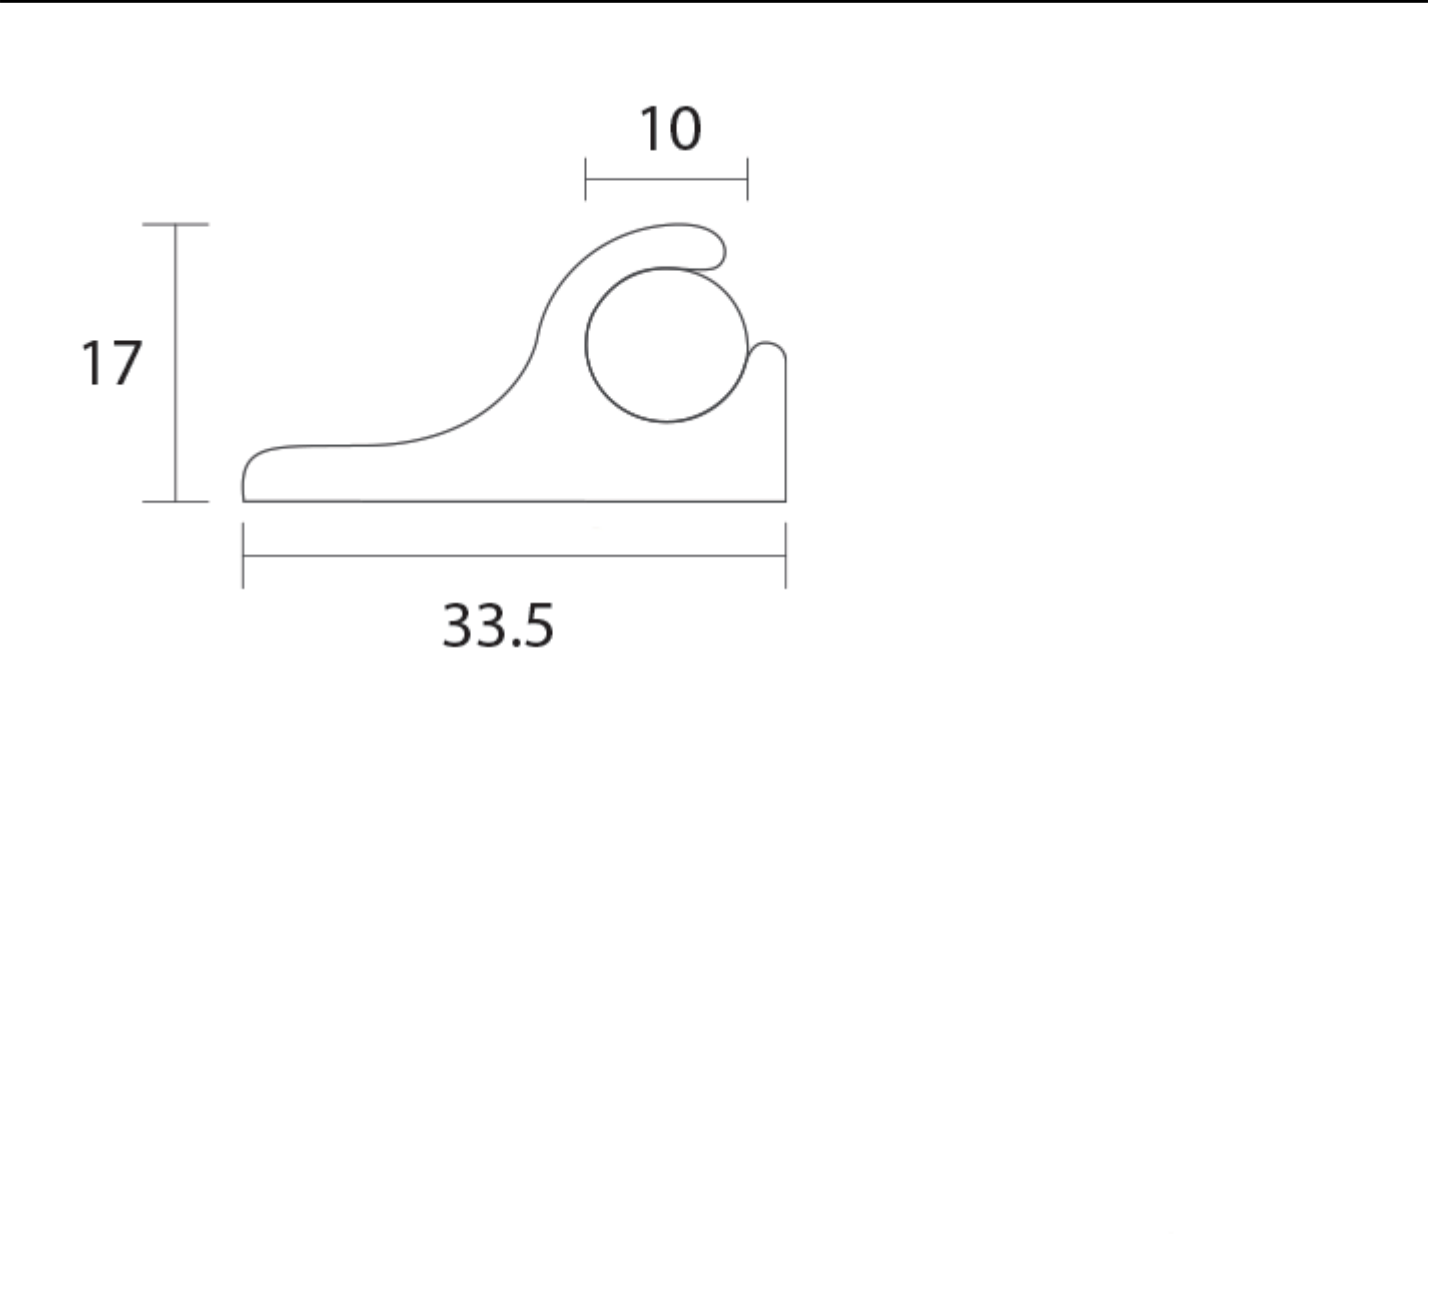

A luff track rail for the fixing of material using a Ø10mm sewn in insert [sold separately].

This luff track is extremely flexible on three axes and can easily follow tight curves without deforming. The luff track is secured in place using screws inside the internal channel [not provided].

This version of the luff track features a flange on one side and is available in white or black.

Product priced and sold per metre with a minimum order quantity of 60 metres [30 lengths of 2 metres].
