£786.32

Excl. Tax: £655.27

Product Images

Short Description

An anodised aluminium steering wheel with leather upholstered grip. This steering wheel is machined from solid aluminium and is then anodised to protect it from the harsh marine environment. Other colours are

available on request.

- Solid aluminium structure, anodised black
- Leather upholstered grip
- Available with spinner and custom logo (for multiple units)
- 3/4" tapered keyway fit

Description

The 'Corallum' Gussi steering wheel is a contemporary and elegant tri-spoke design that fits well in any helm. 'Corallum' is made from anodised machined aluminium and is designed to withstand the harsh marine environment. The model features a unique design thanks to its interrupted form. The gaps in the grip design are a striking feature and set the wheel apart from the rest.

As standard, this model is available in a black anodised aluminium finish with black leather. It is our recommendation that leather wheels are fitted internally only. On request we are able to adapt and change the finish to suit your requirements but please note that sometimes we do need a minimum order quantity to be able to make certain changes. Changes include leather grip and/or other coloured aluminium such as red, blue etc.

Unique Design

Anodised Aluminium

Leather Upholstery with Embroidery Detail
