Short Description

The M2-8 Color Optix™ 2-way 8" speakers deliver loud, clear, accurate sound, and light the way for your journey! The speakers connect with the Rockford Fosgate Color Optix™ Controller and RF Connect App, allowing you to customize your own color patterns. The Element Ready™ design and IP67 certification makes them truly purpose-built for marine or motorsport applications where protection from damaging UV rays and water spray is essential. Includes both standard and stainless steel grille inserts.

Description

The M2 series of Element Ready™ speakers are designed to pair with the Rockford Fosgate Color Optix™ Controller and RF Connect App through its Deutsch™ and Amphenol™ connectors integrated into the speaker. This combined with their IP67 certification make these speakers Element Ready™ and truly purpose built for marine applications. To complete your sound experience, the M2 speakers are complimented by 10-inch Infinite Baffle subwoofers, also controlled through the Color Optix™ lighting system.

- Integrated 1" (25 mm) tweeter with dual neodymium magnet motor
- Laminated "PXNX" Dome tweeter
- 1" (25mm) High Temp Kapton™ Woofer Voice Coil Former
- Ultra-high temperature PA66 with 30% glass-fill injection-moulded frame with UV inhibitors
