Short Description

The PM2T-S marine grade, add-on tweeter kit features a 1" high quality aluminium dome tweeter for accurate audio reproduction and our discreet dual clamp tweeter mounting system with optional horn loading mounting flange. The kit also comes with an inline 18dB/oct audiophile grade crossover which helps direct appropriate frequencies to the tweeter while protecting it from those that may damage it.

The M2-TS add-on tweeters do not incorporate built-in LEDs, but are designed to work with M2 Color Optix™ speakers that do.

Description

If you're looking to add a little more high frequency output to your audio system then look no further than the M2-TS marine-grade, add-on tweeter kit. This kit features a 1" high quality aluminum dome tweeter designed to be incredibly accurate while still producing a high output. Knowing this tweeter will likely be exposed to the elements, we have designed it using all marine rated materials as well as testing it for survival in outdoor applications.

The Element Ready™ design is accomplished through the IPX6 rated front and grille and IPX5 frame. The UV Stable ASA plastic frame & grille design stands up to harsh marine environments, and the gold-plated Marine Grade brass connection terminals provide a corrosion resistant, maintenance free connection. The crossover is a fully sealed external passive 18dB/octave Audiophile Grade high pass crossover utilizing metalized polyester film capacitors selected for their dependability, long life span and preferred electrical characteristics. Kit includes back-mount flush kit and white horn-loaded mount bezel.

- High efficiency 1" (25mm) Tweeter Kit
- Customizable Mounting (Flush Mount or Horn Mount)
- External 18dB/Octave audiophile grade high pass crossover
- IPX6 Rated Front and Grille with IPX5 Frame
- Aluminum Diaphragm
- Marine grade PEI rubber surround
- High Temperature Kapton voice coil former
- Neodymium motor structure
- Dual clamp tweeter mounting system
- Mounting hardware included
- All marine grade construction
- 2-Year Warranty

Additional Information

Weight (kg)	1.100000
Manufacturer	Rockford Fosgate
Speaker Type	Tweeter
Speaker Size	1"
Speaker Impedance	4-Ohms
Crossover	18dB/Octave
Power Handling (Watts RMS)	200 Watts RMS 800 Watts Peak
Tweeter Size	1.0" (25 mm)
Depth (mm)	36.70
