Short Description

Besenzoni's *BUC* system allows the complete control of a Besenzoni hydraulic bathing ladder using your smart phone. Having installed the *BUC* bluetooth unit, simply download the free Besenzoni *BUC* app and leave your remote control behind!

Up to 8 devices can be connected to the *BUC* system which offers great flexibility as every boat user can have control of the bathing ladder.

Compatible with bathing ladders SP601, SP602, SP607 and SP608.

Description

Apps, or mobile applications, are useful and efficient tools that have become part of our everyday life so Besenzoni have come up with an App especially for clients of their bathing ladders. A free, innovative App **Besenzoni Control Device** - for use on IOS 10.0 devices or higher and Android 7.0 or higher - which, combined with a receiver/adaptor **Besenzoni Unit Control**, enables you to operate the Besenzoni bathing ladder installed on your boat.

STEP 01:

DOWNLOAD APP

Download free App Besenzoni Control Device available for mobile devices with an operating system IOS 10.0 devices or higher and Android 7.0 or higher.

STEP 02:

BUY BUC

After carefully checking the technical data of your ladder, purchase the correct Besenzoni Unit Control receiver / adaptor for your ladder here online at timage.co.uk.

STEP 03:

INSTALL BUC

Before proceeding with the positioning, installation and commissioning of the device, carefully read the installation and operating instructions.

STEP 04:

USE BUC

Using BUC to move your Besenzoni ladder is simple and intuitive. The App can be connected simultaneously with up to 8 devices.
